Paleo Diet for Beginners Jan 24 2022 Creamy Chicken Zucchini Fettuccine Ingredients 1 small onion, chopped 2 cloves garlic, minced 1/2 tsp Himalayan or fine sea salt 1/2 tsp freshly cracked black pepper 1 large head (600g) cauliflower, roughly chopped 2 cups chicken stock 1 tbsp Dijon mustard 2 tsp nutritional yeast 2 tsp white balsamic vinegar the juice of 1/2 lime 1 tsp capers 225g mushrooms, sliced 450g leftover cooked chicken, chopped (I used grilled chicken) 1/4 cup fresh parsley, chopped (to garnish) 2-3 large zucchinis, peeled and julienned Instructions 1. Peel the zucchini (or not, I peeled mine just for the look and munched on the peels while I was cooking) and cut them into wide julienne strips with a mandolin. Set aside. (I used the wider setting of my mandolin to create Fettuccine-like "noodles," but you could also do finer noodles with the thinner setting or you could also use a vegetable spiralizer.) 2. Add onion, garlic, salt and pepper to a medium saucepan. Cook over medium heat for one or two minutes, until fragrant and slightly softened. 3. Throw the cauliflower in and continue cooking for a minute or two. 4. Add chicken stock, cover and bring to the boil; lower heat and continue cooking until the cauliflower is tender, about 5-7 minutes. 5. Meanwhile, cook the mushrooms in a large skillet until nice and golden. Add chicken and continue cooking until heated through; Reserve. 6. Ladle the cauliflower mixture into your blender; add Dijon mustard, nutritional yeast, balsamic vinegar and lime juice and process on high speed until super smooth and silky in consistency. Throw in capers and pulse 2-3 times just to mix them in and break them down a little. Pour that cauliflower mixture over the reserved chicken and mushrooms and bring to a simmer over low-medium heat. Executive Economics Dec 23 2021 What do economists know that business executives find useful? Economics ought to be indispensable for business decision-makers because it deals with the issues executives face daily: what to produce, how and how much, at what price, how best to use resources (time, labor, capital), how to understand markets. Why, then, do managers often think that economists' theories are ivory-tower and impractical? Perhaps because most economics texts are mystifying, jargon-ridden, and written from every perspective except that of the line manager. In Executive Economics: Ten Essential Tools for Managers, Shlomo Maital brings economics down to earth, back to the hard day-to-day decisions that executives have to make. He shows how all decisions can be organized around two key questions: What is it worth? What must I give up to get it? Answering these questions depends upon finding and maintaining the right relation in the "triangle of profit" -- cost, price, and value. Each of Executive
